- Royal Australian Navy
- Australian Department of Defence
- BAE Systems
- Teekay Shipping
- Serco
- Sage
- Austal
- Norship
- P & O / Princess Cruises
- CSL Australia

## KEY PARTNERS

- Metaline
- Swagelok
- Marine Sales
- Varivane
- Ausbright
- Eptec

## CAPABILITIES

- AFFF Systems -Testing & Class Certified (LR)
- Pipe Fabricators - Class Certified & Approved Coded Welding.
- Mechanical Fitters - installation and removal (rigging).
- Chemical Cleaning.
- Ballast Water Treatment Systems.
- Metaline Protection Coating.
- CNC Plasma Cutting / Manufacturing Capabilities
- Pump & rotating equipment repair, upgrade & testing
- Laser alignment and vibrating analysis of equipment
- Valve, flange and heat exchanger removal, overhaul and testing
- Flow system analysis equipment and pipework
- Hydraulic systems - inspection, analysis, oil sampling, overhaul & Electric motor - testing, removal, overhaul and set to work
- Marine Material Specialist suppliers - Copper Nickel pipe and fittings / Valves

## RELEVANT EXPERIENCE

- Solutions Providers to ships systems
- Geographical Engineered workforce
- SME to Fixed Fire Fighting Systems (Marine)
- Deliver high volumes of work that often exceeds expectations.
- Our dedication to finish is incomparable and makes the difference in delivering on timelines.

## CERTIFICATION STANDARDS

- ISO 9001:2015
- ISO 14001:2015
- ISO 45001:2018
- Weld Australia AS/NZS ISO 3834 /2
- Lloyds - AFFF - LR2026106AS
- DISP
